

# ANTI-SLIP

## EASYGRIP

PORCELAIN TILES, CERAMIC TILES, GRANITE, QUARRY TILE

### WHAT IT'S FOR

- Increases the grip on porcelain, ceramic and granite floors.
- Creates surface micro-abrasion to increase slip resistance on wet surfaces.
- Reduces the risk of slipping on small surfaces such as shower trays, doorways, and entrances.
- Ideal for areas where people walk barefoot or where water or condensation tend to collect.

### ADVANTAGES

- Invisible safety: reduces the risk of slipping without altering the appearance.
- Does not bleach dark materials.
- Permanent and stable over time.
- Water-based.
- Ideal for indoors and outdoors.
- Specially designed for DIY use.
- Does not form a surface film.
- The surface is ready to use immediately after treatment.

### HOW TO USE IT

**Dilution:** ready to use.

**Application:**

Test the product on a small, inconspicuous area or loose sample before application. Protect adjacent areas. Wash the surface thoroughly with a suitable cleaner.

Apply a generous coat of **EASYGRIP** with a brush, covering the entire area to be treated.

Leave to react for 10 minutes, adding more product if necessary to prevent the surface from drying out.

Remove any residue and rinse thoroughly. Repeat if necessary.

After treatment, we recommend a neutralizing wash with a FILA neutral cleaner (**CLEANER PRO**).

**Caution:** The treatment is irreversible: a preliminary test is strongly recommended. The treatment may alter the gloss of the surface. If used incorrectly, the product can lead to a loss of color.

The product is corrosive on glass.

Use the product at surface temperatures between 10° and 30°C.

Do not treat surfaces when they are exposed to direct sunlight.

The anti-slip treatment may be ineffective and uneven on porcelain with a polished or lappato finish.

Do not use on calcareous stone.

**Storage temperature:** between 41°F and 86°F (5°C and 30°C).

Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).

### EASY & EFFECTIVE

**Coverage:**

16.9 FL.OZ. (500 mL)

32 sq. ft. (3 m<sup>2</sup>)

Coverage rates are indicative.

**Packaging:**

16.9 FL.OZ. (500 mL) 6 plastic bottles per box
