

GROUT SEALER

ALL TYPES OF GROUT ON CERAMIC AND PORCELAIN WALLS AND FLOORS

- Makes cleaning quick and easy.
- Water-based technology: greatly reduces treatment times.
- VOC-free
- Odourless.
- Does not alter grout colour.
- Interior and exterior use.

WHAT IT'S FOR:

- Seals and protects all grout joints.
- Prevents water absorption and staining.

HOW TO USE IT:

The product is ready to use, no dilution needed.

To seal grout: ensure the grout is cleaned using **GROUT CLEANER**. Then, on a clean, dry surface spray **GROUT SEALER** directly onto the grout. Wait 10 minutes and remove any excess residue using a clean, dry cloth. The surface can be used after 4 hours. To seal grout on stone installations, seal the entire surface with **NATURAL LOOK STAINPROOF SEALER**.

PACKAGING	PIECES PER CARTON	APPROXIMATE COVERAGE (750 ML):
750ML	12 pz	Grout joints: 850 linear metres

STORAGE TEMPERATURE:

Between 5°C and 30°C.

Must be applied at temperatures between 10°C and 30°C.

Caution:

The product can only be used on fully cured grout. Do not wet the surface within 24 hours after application. Dry residue that is not removed during application can be cleaned off with **MULTI SURFACE CLEANER** diluted 1:30; 165 mL in 5 litres of water.
