

MULTI SURFACE STAIN REMOVER

PORCELAIN, GLAZED CERAMIC, UNPOLISHED NATURAL STONE, TERRACOTTA, QUARRY TILE, ENCAUSTIC TILE, CONCRETE, VINYL AND PVC

INDOOR
USE

OUTDOOR
USE

- Deep cleans and removes tough stains.
- Helps to remove streaks and cleaner residue.
- Brings porcelain tile surfaces back to their original appearance.
- Contains biodegradable ingredients.
- Water-based technology.
- Interior and exterior use.

WHAT IT'S FOR:

- Eliminates the toughest stains.
- Powerful degreaser.
- Removes built-up dirt.
- 3-in-1 formula: cleans, removes stains and strips wax.

HOW TO USE IT:

To remove stains or clean very dirty areas: dilute the product 1:5 with clean water; 1L of **MULTI SURFACE STAIN REMOVER** with 5L of water. Apply the solution across the surface 2-3 m² at a time. Leave to react for 10 minutes, then scrub the surface with a suitable pad or brush. Remove residue using a clean, damp cloth and rinse well.

For stubborn stains: apply the product undiluted directly to the affected area and leave to dry. Wash the surface and rinse well with clean water.

To strip wax: dilute the product 1:5 with clean water; 1L of **MULTI SURFACE STAIN REMOVER** in 5L of water. Apply the product on the surface. Leave to react for 10 minutes, then scrub the surface with a brush. Remove residue with a clean, damp cloth and rinse well.

PACKAGING	PIECES PER CARTON	APPROXIMATE COVERAGE (500 ML):
500ML	12 pz	Stain removal, dilution 1:5: 15 m ²
		Wax stripping, dilution 1:5: 8 m ²

STORAGE TEMPERATURE:

Between 5°C and 30°C.

Must be applied at temperatures between 5°C and 30°C.

Caution:

Do not use the product on new polished stone surfaces or wood. Do not use on methacrylate bathtubs. On vinyl and PVC, test the product on a small, inconspicuous area to check for discolouration before full application.
