

WATER- SPOT PROTECTION

NODROPS

SHOWER CUBICLES, GLASS, GLASS MOSAIC,
GLAZED CERAMIC TILES, MIRRORS

WHAT IT'S FOR

- Cleans and protects glass surfaces making them hydrophilic, the water runs off without leaving limescale residues.
- Ideal for shower cubicles.

ADVANTAGES

- Contains biodegradable ingredients.
- Easy to apply, does not require rinsing as it leaves no smears, eco-friendly.
- Can be used for regular cleaning and maintenance of faucets, steel elements and plexiglass.
- Its acid-free formula makes it suitable for use on or near acid-sensitive materials.
- If used regularly, no other limescale removers are required.

HOW TO USE IT

Spray **NODROPS** on the surface while holding the bottle in a vertical position at about 8-12 inches (20-30 cm) from the application area. Wipe with paper towels or a soft dry cloth to spread the product evenly. Leave to dry.

The shower can be used immediately.

For best results, **NODROPS** should be used regularly for maintenance.

If the surface to be treated with **NODROPS** contains visible traces of limescale, it should first be cleaned using **SHOWERCLEAN & SHINE FOAM**.

Storage temperature: between 41°F and 86°F (5°C and 30°C).

Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).

PREVENTS LIMESCALE DEPOSITS AND STAINS.

RESPECTS DELICATE, CHROME-PLATED
OR STAINLESS STEEL SURFACES.

Packaging:

750 mL (25.3 OZ) 6 spray bottles per box
