HOW TO USE IT

Dilution: according to use
For cleaning and degreasing all surfaces. Dilute in water (1:10-1:20) and apply on the surface. Leave to act for 4-5 minutes before brushing with a single-disc floor scrubber or scrubbing brush. Use a cloth or liquid vacuum cleaner to clean any residues and then rinse thoroughly.

For a more vigorous cleaning, dilute 1:5. To remove stains from porcelain tiles: Pour undiluted onto the stain and the entire tile. Leave to act until fully dry, then wash and rinse the surface.
